

# LaGrange County RC Club

## August 2005 Newsletter

---

President Jim Reick opened meeting at 7:00 pm at the landfill field. 16 members were present and two guests. Minutes from the June meeting were read and approved. A treasurer's report was given as \$172.10 and approved.

**Old Business:** Jim thanked Steve Tetrick for the letters of appreciation sent to the commissioners on behalf of the club for the approval of our new shelter.

**New Business:** Toilet facilities were discussed and we are to make suggestions either to purchase a portable or see if the old landfill restroom can be made suitable. Decision possible for the next meeting. Jim and Denny to explore a family gathering either at a restaurant or a BBQ at the field. They are to report at the next meeting. Greg will be getting ten summer style hats made. It was determined that our current style is too hot for the warm months. Field improvements were discussed and we are looking at expansion to the east and possible fill dirt in the low parts. This will be long range planning. Kane suggested a possible group fuel buy. If we email our needs to him, he will shop for the best price. His email address is [kanep@mchsi.com](mailto:kanep@mchsi.com). An open fly-in has been established for October 16<sup>th</sup>. The usual food and drinks will be available. Jerry to take care of that and Kane to bring his grill. Denny suggested nametags for our members to be hat attached. Jerry to look into it. Saturday August 13 at 10:00am will be the prop making demo at the field. Dick to provide a vice and Tom the generator. Ed will be recording the event for those who can't be there. Dick suggested recognition for Bob Lewis who will be showing us how this is done. Jerry Brown said he would take care of taking Bob to a fine restaurant. Bob was the founder of R&L Props. Jerry Brown uses his props on his planes.

Editor's comments: We had some rain and distant lightening which slowed things down a bit. Our two guests each brought planes. A LT-40 which was taken up and trimmed by Ed and a Nextstar flown by Craig with a buddy box for the guest. Both of these fellows applied for AMA and club membership. It's nice to see us jump on the opportunity to introduce our hobby to others and make them feel welcome.
