

LaGrange County RC Club

November 2006 Newsletter

President Craig Parham opened meeting at 7:00 pm at the field 12 members were present. Minutes from the October meeting were read and approved. A treasurer's report was given by Greg as \$410.46 and approved. Ten hats in stock.

Old Business: None

New Business: Dick will take the lawnmower home and service it for the spring. He will also winterize the port-a-pot. The big mower can now be placed in the barn. The next time some one is out with a suitable hitch on the week end we'll move it. The Grill that Denny donated will be stored in the outhouse for the winter. Denny brought some old tarps to the field to provide a wind break for the winter. Needs some thought put into it. Scott Bower was introduced as a guest from the Three Rivers Club. Program for the December meeting is going to be about electric flight and batteries. Next meeting is on December 12 at the Candy Factory.

Editor's Comments: The Program was about RC gadgets. Gadgets were brought by Craig and Jerry. Gadgets included running lights, lost plane module, electric thrust measuring device, electric telemetry, tachometer, heat monitor, wattmeter, digital scales, lipo cell balancer and servo tester. Jerry Brown was home from his winter home in Arizona on business and attended the meeting and filled us in on his winter flying. They fly electrics in the morning after breakfast and the big planes in the afternoon. Everyday that the weather is suitable!
